

FYI,

How to activate the Circos license on the licenser server (PRlicensing01 – IP address: 10.100.99.58)?

Found the vendor contact information on the installation document below.

Contact the Festo Didactic hotline if you have questions regarding licensing. The hotline can be reached by phone at +49-711-3467-0 or by e-mail at did@de.festo.com. Enter the following text to the subject line if you send an e-mail: "Software hotline, network licensing".

I emailed to ***did@de.festo.com*** and got the below reply. I activated the license and it worked. See screenshots below for detail.

Available Licenses - Select the binding for Your Licenses

You can bind your licenses either to a computer (**CmActLicense**) or to a dongle (**CmDongle**).

- When binding to a computer, the licenses are transferred to that machine. The licenses are associated with some properties of this computer.
- When binding to a CmDongle, the licenses are fully transferred into this dongle. This allows you to use these licenses on different computers.

I want my licenses on one computer (**CmActLicense**).
